

You have a nursing diploma.
You have a confirmed professional experience of working in a Sleep Laboratory and ideally have completed specialised training in this field.

**We are hiring:
A NURSE (m/f) for the Sleep Laboratory**

Your mission:

- Realisation of polysomnographia tests and video EEG records
- Sleep analysis under the rules of the American Association of Sleep Medicine regulations
- Manipulation of positive pressure breathing equipment
- Close collaboration with the non-invasive ventilation consultation unit and with the pulmonology and neurology medical-technical units

The CHL is an acute care hospital with a total capacity of 600 beds and nine National Health Services. Additionally, the CHL is Joint Commission International (JCI) accredited and recognised for its quality and safety of care. We are also a teaching and research hospital in the Grand-Duchy of Luxembourg and in the Greater Region.

One of our main priorities for our 2300 employees is to promote their work/life balance and professional fulfilment.

Our offer :

- A permanent, full-time contract
- An attractive salary
- 6 and a half weeks of vacation days and additional days off
- An adapted and continuous education program
- An employee's restaurant and a nursery for the children
- Fitness centre and corporate social activities

For further information and application, please visit our website www.chl.lu and fill out our online application form accompanied by a CV and a cover letter.

Note: Candidates invited to interviews will be asked to provide a certificate of good conduct.
