

INTERNATIONAL SLEEP MEDICINE COURSE

February 08-11, 2021

Blankenberge, Belgium

ISMIC 2021

Floreal Club, Blankenberge, Belgium

The Belgian Association for Sleep research and Sleep medicine (BASS) announces the next edition of the International Sleep Medicine Course. The 2020 edition was canceled due to the Covid-19 pandemic. The 2021 edition will take place from Monday 08/02/2021 till Thursday 11/02/2021 at the Floreal Club in Blankenberge, Belgium.

The ISMC is a joint organization of the Belgian Association for Sleep Research and Sleep Medicine (BASS), the Nederlandse Vereniging voor Slaap-Waak Onderzoek (NSWO), the Slaapgeneeskundevereniging Nederland (SVNL) and the British Sleep Society (BSS). The ISMC has grown into a highly acclaimed international post-graduate program for professionals involved in caring for patients with sleep disorders. The scope of the course is to offer a comprehensive and contemporary review of the most relevant aspects of normal sleep and sleep disorders. This educational package should enable the participants to prepare for sleep medicine examinations.

The venue in Blankenberge is a fine resort located at the Belgian coast, near the seaside. This casual environment should facilitate lively debate in and out of the lecture rooms, and incite new friendships.

Online registration is available at www.belsleep.org. Registration fees include attendance at all lectures, course material, three lunches and daytime refreshments. Accreditation will be requested for the entire course.

We are looking forward to meeting you in Blankenberge,

On behalf of the organizing committee,
Prof. Dr. A. Mariman, local organizer
